

Work Of The Farm Advisor New Notes Of Interest To Ranchers

The following meetings have been arranged with the various farm improvement associations and farmers' organizations working with the farm advisor.

Chandler F. I. A., Thursday, September 9. This meeting is called for the purpose of organization at the suggestion of the Chandler Farmers' Union.

Gilbert Commercial and Country Club, Friday, September 10.

Lehi F. I. A., Monday, September 13. This date is given in substitution of September 2, at which time the regular meeting was cancelled on account of rain. A good program is expected.

South Side F. I. A., Tuesday, September 14. In the Neighborhood House. The complete program has not been announced yet but it is reasonably certain that H. M. Fennimore, president of the chamber of commerce, and Thos. Maloney, purchasing agent for the reclamation service, will address the meeting. This club is receiving nationwide notice. (See pictures of Neighborhood House and article in the Illumination Record of September, 1915.)

Maricopa County F. I. A., an organization of councilmen from each

of the organized districts within the county. Already nine organizations have joined this body and four or five others are expected to be represented. The meeting is to be at noon in the Chamber of Commerce, Phoenix, Arizona.

Pendergast school district, Thursday, September 16, 8 p. m. Live-stock Specialist G. W. Barnes, of the University of Arizona, will be present to give an address entitled "Calf Feeding." Prof. S. F. Morse may be present, and Farm Advisor J. A. Armstrong will tell "How to Make Alfalfa Grow During the Hot Weather."

Higley Board of Trade, Friday, September 17, 8 p. m. The subject will be "Exhibits for the State Fair" and "The Growing of Small Grains under Dry Farming Conditions." A report on bird control is expected. Suggested treatments by the farm advisor are now being tried.

Laveen Literary Society, Friday, September 24, 8 p. m. Farm Advisor Armstrong will tell why alfalfa does not grow well in August and September and what to do about it.

If you have not been attending the farm meetings in your community you are missing something.

JUDGE DENIES CAMERON WRIT

Application for Injunction to Restrain Land Office from Hearing Contest on Mineral Claims Is Turned Down in Court.

(Special to The Republican)
PRESCOTT, Sept. 8.—Judge Sawtelle of the federal court today denied a motion of Plaintiff Ralph Cameron for an injunction to prevent the United States land office officials at Phoenix from proceeding with a hearing affecting claims in the Grand Canyon on account of lack of jurisdiction.

And another stake in the suit of the government to oust Cameron from his holdings on the National monument has been reached. The denial of the application for the injunction will result in an appeal by the Cameron interests. It is said. But such an appeal will not restrain the land office from continuing its hearings on the case.

Following the announcement of the denial of the application, attorneys for Cameron read for the court, a ruling by First Assistant Secretary of the Interior A. A. Jones, holding that the United States had no right to institute contest proceedings in cases where no application for patent had been made. Cameron has never applied for patent for the sixteen claims he holds in the Grand canyon, and his counsel claimed the Jones ruling, though applying directly to a homestead rather than a mineral case, covered this case as well.

The application for an injunction followed the denial of a demurrer to land office jurisdiction by Receiver John Birdno and Register Thomas Weedin at Phoenix. The land office has heard the government witnesses in the case, and the action was suspended while the application was being argued here before the federal court. Judge Sawtelle directed that the plaintiffs shall have ten days in which to amend their demurrer for a rehearing before the land office shall resume its hearings on the original contest.

NEMESIS OF ARABIC

(Continued from Page One)

tions of reparation and compensation to The Hague for adjustment.

This news was communicated immediately to James Gerard, the American ambassador, for transmission to Washington. Prior to the receipt of the report of the submarine commander, admiralty officials were of the

belief the submarine had been lost. No reason for her delay in returning to port was given. A high official of the foreign office, in discussing the case with the Associated Press correspondent, said the commander of the submarine evidently had adequate reasons for believing the submarine was about to be attacked and was justified in taking steps necessary to save his boat and crew. The torpedoing of the Arabic, according to this official, could not be considered an unprovoked attack without warning, but a method of self-defense which the commander of the underwater boat was compelled to adopt by the alleged suspicious actions of the Arabic.

News of the return of the submarine and the commander's report has not yet been published in Germany. There is still no report available with regard to the sinking of the Allan line steamer Hesperian.

The note reveals in details the instructions to submarine commanders concerning their treatment of liners. They are ordered not to attack a passenger steamer except in case of an attempt to escape after it has been ordered to halt or unless the actions indicate they intend to attack the submarine.

The submarine commander, according to his report concerning the sinking of the Arabic to the bottom, said he believed the Arabic was about to attack the submarine, and therefore he acted within his instructions. German naval experts declare there is no other course open to submarines under the present conditions when, they assert, every merchantman, from a liner down to a fishing smack, is a presumptive enemy, perhaps carrying guns and ready to seize any opportunity to attack a vulnerable submarine by gunfire or ramming.

No Word in Washington
WASHINGTON, Sept. 8.—No word from Ambassador Gerard regarding the German note had been received when the state department closed tonight. Cabled dispatches usually require twenty-four hours or more for transmission.

WATER PRICE

(Continued from Page One)

ter may have to go clear to Washington.

If the order extended the contracts with their conditions, as its wording indicates, and it is ruled that the order means just what it says, those who have used their four acre feet of water, or who will have used this amount by October 1, will have to buy 75c water if they use any at all during the two months.

If the contracts are renewed automatically, for an interim between the old system and the new, then under "conditions thereof," the water user must apply for and purchase a new minimum stock of two acre feet at the regular rate.

One prominent official of the water users, declares the order was merely intended to bridge a gap between the old order and the new, in the most convenient manner possible, and that without doubt, water could be bought for the two months, at the fifty cent rate.

But it was pointed out that at the expiration of the sixty days, new contracts would have to be made, and that these contracts would run for a period of twelve months, not ten, and

MORE LAND SELECTED BY STATE COMMISSIONER

State Acquires Land That Is Rich in Lumber, and Is Good Location for Dry Farming

The state land commission yesterday made more land selections from the federal land reserve.

In Yavapai county two selections of 6293 and 4356 acres were made. This land lies mostly in the Big Chino Valley, and is located in township 1, 7N, 3 W, 21 N, 4, 5, 6. The land is valuable for its cedar forests, and also contains some of the best dry farm land in the state.

In Cochise county 6200 acres were taken up near San Bernardino in township 1, 20 S, R. 31 E.

The selection as listed with the U. S. land office, designated the purposes for which they were being taken up by the state.

Selection No. 1, consisting of 6198.47 acres, was for the benefit of charitable, penal and reformatory institutions.

Selection No. 2, consisting of 4356.08 acres, is for the payment of bonds and accrued interest, of Maricopa, Pima, Yavapai and Coconino counties, and

Selection No. 3, consisting of 6295.29 acres is for the same purpose as No. 2. The total acreage filed on in this lump is 16,949.84 acres.

CLUB CONTEST IDEA WORKS OUT TO GOOD OF THE STATE FAIR

Corn, Cotton, Cane Canning Club Members to Compete for Handsome Premiums at Big Fall Festival

The list of activities in the state in which the young people can contest is being increased with every passing year. For the last two years the whole United States has rung with the splendid work done by the boys of the nation in raising corn. The organization of "corn clubs" did it. In like manner in the south especially "cotton clubs" were formed. Arizona agriculturists have taken advantage of both propositions and have fostered "corn" and "cotton" clubs, but there has been added one to this in the form of "pig" clubs, so Arizona boys in the farming counties are coming to the fair with their three sorts of clubs to contest for prizes that are worth while.

Then the girls have not been overlooked, for there are the bread and cake contests in which the girls engage, as well as the "canning clubs" in which they will contest this year. There is a likelihood also it is understood, of forming "cane clubs" for fostering the growth of good cane in the various sections of the state where sugar cane can be grown.

School Children

Can't Afford Handicaps

In a remarkable test, recently made under the supervision of the State Board of Health of Minnesota, over 9000 school children were questioned as to what they ate for breakfast.

A large percentage of the breakfasts consisted of coffee, bread and butter; coffee and oatmeal or some other cereal; coffee and hotcakes; coffee and biscuits; coffee and coffee cake, or coffee alone. Probably the same conditions prevailed everywhere throughout the country.

"IS IT ANY WONDER," SAYS THE EXAMINING PHYSICIAN, "THAT 23 PER CENT OF THESE CHILDREN HAVE FREQUENT HEADACHES?"

He was thinking of the chief cause—coffee. And it IS no wonder when we consider that coffee contains the powerful drug, caffeine, a nerve poison and notorious cause of headaches, heart trouble, sleeplessness, irritation, and other ills!

Parents often wonder why their children are sickly, dull and backward in school, when frequently the cause lies in the homely, accepted habit of giving them a beverage containing an insidious poison.

When scientists and Boards of Health everywhere are speaking out against the dietetic dangers to which children have been so long subjected, it is high time that parents take heed and correct these conditions. No child should be permitted to use coffee. It is easy to furnish them instead the pleasant, pure food-drink—

Instant Postum

Made from wheat, roasted with a bit of wholesome molasses, Postum contains the goodness of the grain and is a most delicious beverage, economical, convenient and free from coffee drugs or other harmful substance.

Postum comes in two forms: The original Postum Cereal, which has to be boiled; Instant Postum—soluble—made in the cup with hot water—instantly. They are equally delicious, and the cost per cup is about the same for both kinds.

POSTUM FOR CHILDREN AVOIDS COFFEE TROUBLES!

"THERE'S A REASON"

GLENDALE

FARMERS' UNION TO HOLD BIG MEETING

At the session of the Farmers' union Saturday night it was decided to make the next meeting, on the third Saturday night in this month, a big rally, when refreshments and a social time will be enjoyed. Every member is urged to be present and bring as many friends as he chooses.

President C. C. Green was elected delegate to the county central advisory board of farmers and allied associations, with C. H. Gilbert as alternate.

Green McCabe, president of the People's Lumber and Supply company, was a business visitor in the Capital City Wednesday.

The Sunday school of the Church of Christ is enjoying a picnic at Riverside park today.

G. A. Cunningham, an old friend of Mr. and Mrs. G. W. Protzman, formerly of Colorado, but now in the realty business in Phoenix, was a guest at the Protzman home Monday.

PUPILS MUST BRING PERMIT

At a joint meeting of the board of trustees and patrons of the Glendale Union High school, held Tuesday morning, it was resolved by the board that all pupils living outside of this district and wishing to attend another school will be required to present permits from the board of trustees of the district in which they reside.

Del Trebil is master mechanic at the high school in the installation of foundations for the Perfection Gas Machine being installed for use in the domestic science department.

John McCoy is leading a force of workmen in the plumbing being done at the high school.

Born Sept. 5, a son to Mr. and Mrs. Vasil Cline at the Manistee ranch.

Ed Hausstgen left Monday for Los Angeles on a ten days' vacation.

Wickenburg, were Sunday guests at Mr. and Mrs. Edward Lyle, of

that therefore, the extension of time was an extension of the irrigation year, as well as an extension of contracts covering such year. But the extension of the year and with it the contracts, argues that conditions of the contracts are maintained, and that the order in effect, merely makes it necessary to continue as though October 1 were shoved back on the calendar two months.

F-4 HULL IS CLEARED

[ASSOCIATED PRESS DISPATCH]

HONOLULU, Sept. 8.—The clearing of the submarine F-4 has been practically completed. The hull will be towed to Pearl harbor to await such disposition as the navy department may order. Little hope is entertained of further identifications of the remains of the bodies found in the hull, most of them being unrecognizable fragments.

Officials are reticent regarding the investigations as to the cause of the disaster and refer all inquiries to Washington.

the R. M. Lyle ranch north of the city. The trip was made by auto.

Farmer Delberry was in the city for supplies Wednesday.

Mr. and Mrs. Reed were guests at the Lyle ranch Sunday afternoon.

A NOISY BUNCH

Last Friday night people living south of town didn't know but Caranza's army had become disgusted with the tameness of Mexico and had sought a new field of operations. From Gilbert's ranch on south to Cartwright and back around by the Alkins ranch came appeals to the local officers. It developed that a number of youngsters from Glendale, ranging in age from 15 to 29 years, fortified themselves with guns of various caliber and in an automobile proceeded to have a joy ride of a different type to that usually indulged in. Rural reports have it

that more than a hundred shots were fired. As a result, Justice Patterson assessed a fine of five dollars each against Carl Cloer and Bert Marks, held Tom Lang and Ray West to the juvenile court, and lectured Eugene Owens and Arthur Page. There is still another member of the party at large. While no criminal intent ever entered the minds of the youngsters, yet it must be admitted that promiscuous firing of revolvers along the public highway is a very dangerous pastime. If some person or stock had been accidentally struck the boys would have been up against a serious proposition.

The Boy Scouts of Glendale, under the supervision of Rev. David Roberts, are enjoying a several days' hike and picnic at the river.

Who has reared the perfect child? See "The Spendthrift" at the Lion-Adv.

FALL TERM

LAMSON Business College

28 West Washington Street
Phoenix, Arizona

Will Open
Monday, Sept. 13

Regardless of the general "business depression" so great has been the demand for office help who have had the Lamson Business College training that we have been unable to supply all the demands upon us.

To be sure of a good position in the shortest possible time, enterprising students enroll in this school and are not disappointed.

Thorough instruction in Spelling, Penmanship, Business English, Letter Writing, Shorthand, Typewriting, Bookkeeping, Commercial Law, Arithmetic, Office Work, and Banking.

For full information, call, wire, phone, or write

E. M. Lamson, Pres.
